Hi Pete,

Thanks for info on Kennedy and all those mysterious deaths. Looks like the only one who didn't get killed was Garrison!! Makes ya wonder why not. Lot of hysterical folks, to be killing themselves......hmmmm.

Thanks again, and Happy New Year! Have a drink for me; I've got bronchitis...

Hello Clark,

Thanks for more info on Kennedy. I'm sure by now you saw Pete Porro's post and run-down on the deaths.

Amazing story....

Thanks and Be Good!

Ian, I am always happy to be of help if possible.

UFO Magazine is a bi-monthly publication that takes a sober, skeptical look at one of the most fascinating subjects around, UFOs. The best way to receive the magazine in the U.K. is via subscription. In the U.S. the cost is $21.00 per year, and outside the U.S. it is $28.00 per year. If you live outside the U.S. and wish it to get to you 1st Class (much faster) the cost is $36.00, and you will recieve it much quicker.

The address to send a subscription fee is;

UFO Magazine
P.O. Box 1053
Sunland, Ca. 91041
U.S.A.

Hope that is of assistance.

Keith, as of yet no, nothing happening. However you may certainly
subscribe-direct...

The cost outside the U.S. is $28.00 U.S. currency, and if you would wish it
sent air-mail 1st Class, the cost is $36.00 U.S. Inside the U.S. it is still
$21.00. Write to;

Mike, Seasons greetings.
Curran's excellent book on Folk Concepts of Outer Space was published in 1985 by Abbeville Press, Inc. 505 Park Avenue, New York, 10022. It is difficult to get but a wonderful book on the human response to the ETH pulse.
Ray Stanford's own book was published as "Socorro Saucer in a Pentagon Pantry" by Blue Apple Books, P.O. Box 5694, Austin, Texas, 78763 run by a friend of Ray's, John Lucas. He also did the excellent drawings. I'm not sure whether Blue Apple is still going. Fontana published a paperback version as "Socorro Saucer" in 1978 (William Collins, UK) with an extra chapter referring to supportive info on the possiblity of a landing at Holloman in 1964 in which contact or retrieval was made. APRO was writing about this in 1964! This claim was resurrected by Doty with Howe in the early 80s, and Emenegger had a similar story thrust on him in the 70s, but his contacts were stating that the Holloman landing took place in 1971 - a B___ S____ date according to Doty (via Linda Howe). I don't know if a US paperback edition

was published.
I would be interested in hearing anything re the
Howe/Emenegger/Holloman connection.

Thanks for the advice Jim. I've been very active in UFOlogy for the
past 30 years. So far I haven't had any unpleasnt experiences with the
MIBs (Men in Black). However, if I happen to see a real UFO, I won't
tell anybody.

Hi Peggy, The address for the IUR is International UFO Reporter, 2457 West Peterson Avenue, Chicago, Illinois, 60659. Price is quoted in a recent issue as $25.00 per annum, six issues. Articles I write, are sent to a variety of Journals e.g. IUR, Magonia, MUFON Journal, Fortean Times (all gratis). I like the IUR for its academic leanings to the subject. Re reproduction of the articles elsewhere, I have always found the editor Jerry Clark more than willing to grant permission to reprint. For example, my last IUR article on an Australian abduction case was reproduced, with Jerry's and my permission in the UK Fortean Times. So no, I'm not contracted to anyone, just the most appropriate mag for the article.

I recently received from Dr. Bruce Maccabee a summary of grant proposals for the continuing Roswell case investigation. This summary is reproduced below for those of you who did not receive this inquiry. The names in parentheses are the proposers, dollar amounts are estimated Project costs.

He would like us all to rank order of the following proposals by placing a "1" beside the project you think is the most important; a "2" next to the second most important, etc.

The form should then be mailed to:

Fund for UFO Research
P.O. Box 277
Mt. Rainier, MD 20712
U.S.A.
++

___ Project A -- To conduct further research into UFO crash/retrieval cases (Leonard Stringfield): $1,200

___ Project B -- To interview six additional witnesses (Don Schmitt): $1,700

___ Project C -- To conduct hypnosis sessions with known and potential witnesses (Stanton Friedman): $15,860

___ Project D -- To conduct further research at the Truman and Eisenhower Libraries, the Sandia and Los Alamos Laboratories, and at the Library of Congress (Stanton Friedman): $6,545

___ Project E -- To produce a follow-up videotaped summary of witness testimony (Fred Whiting): $500

___ Project F -- To bring significant witnesses to Washington, DC, for a de-briefing by congressional staff and interviews with media representatives (Fred Whiting) $5,700

Any further suggestions:.....

My personal order of importance would be F (absolutely!),D,A,C,E,B

Hmmmmmm....good thought.
Maybe something like Tristan Jones' tall, fair-skinned, red-haired group of people in South America. (It's been a while since I read that one of his books and I don't remember now which country it was

in...could be same one.) I'll have to see if there's some way I can get a copy of the original story from the Independent.
Maybe "one scientist" had more to say on the topic than that little item had space to tell.

Hi Pete,
        Could it be I used the wrong number? I posted it either on 12/29 or 12/22 (last two call dates -- not sure now which was *the* one). I have in my notes this #:75046,762. If that's not you, then somebody out there is wondering what in the world is going on and who is this nut who keeps sending him imponderable stuff <g>!
It should've reached you via EMail--should get the mail announcement when you first logon, so if you didn't find it [oops -- sorry, my automatic backup program just interrupted here and I had to tell it to shut up and go away for the moment] when you called for football info, something must be amiss.
        I, too, am a fan after years of hating the game. Finally learned what it was all about. Does it seem to you that this year just isn't as good overall -- there've been a few really good games but a whole ton of snorers too -- or is that just the perspective of a less avid fan?
